OBJECTIVE

Computer Science Engineering student at NMAMIT passionate about problem-solving and eager to deliver technical skills in real-world projects. Committed to becoming a successful software professional by bridging technology and innovation.

EDUCATION

NMAM Institute of Technology, Nitte, Karkala Expected 2027
Bachelor of Technology (B.Tech), Computer Science & Engineering

TECHNICAL SKILLS

Programming Languages: C++, Java , Python , C

Web Development: HTML, CSS, React , JavaScript

Databases & Tools: MySQL, SQL , XAMPP , Git, GitHub

Core Competencies: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP) , Problem Solving

PROJECTS

Staffroom Finding Website VS Code, MySQL

- Developed a user-friendly website to help new students locate lecturer staffrooms efficiently.
- Integrated previous year questions (PYQs) for academic reference.
- Responsible for data collection and analysis to ensure accurate and relevant information.

Online Quiz Platform — GitHub Link HTML/CSS/JS, MySQL, XAMPP

- Developed a web application for quizzes featuring a MySQL backend and intuitive frontend.
- Enabled administrators to manage, sort, and analyze questions and answers efficiently.
- Designed for scalability and performance tracking to improve user experience.

Intelligent Contact Management System Go, React, PostgreSQL

- Built a full-stack contact management system using Go (backend) and React + TypeScript (frontend).
- Implemented REST APIs for CRUD operations, search, soft delete, and restore functionality.
- Designed a relational database schema and optimized queries using PostgreSQL.
- Applied clean architecture principles for scalability and maintainability.

Compiler for Hypothetical Language Python, Compiler Design

- Developed an SLR(1) parser and executor for a mini programming language.
- Built FIRST/FOLLOW sets and LR(0) items with a conflict-free parsing table.
- Implemented lexical analysis, parsing, and basic execution of conditional statements.

ACHIEVEMENTS & CERTIFICATIONS

- **Azure AI Fundamentals:** Microsoft Certified in Azure AI Fundamentals.
- **Technical Learning:** Completed professional certifications from Infosys on C++ and attended Microsoft webinars on Azure Studios.
- **Coding:** Actively solving algorithmic problems on LeetCode and TUF.
- **Workshops:** Participated in Nestle event for E-Learning sustainability and gained knowledge in Ethical Hacking.
- **Recognition:** Received appreciation certificate from Tudar Club for the Tululipi event.
